

The
Point of Care
Foundation

Schwartz
Rounds

Running in **177**
healthcare
organisations
across the UK and
Ireland.

A unique group reflective practice forum which provides an opportunity for staff, both clinical and non-clinical, to reflect on the emotional and social aspects of working in healthcare.

Lisa Crichton-Jones, Executive Director of Workforce & OD,
below shares her experience of Schwartz Rounds:

"Probably as far back as three years ago I had my very first conversation about Schwartz Rounds ... in a meeting with the trade unions as we were reflecting on the enquiry at Mid Staffs and the importance of culture. ... So, fast forward in time and this week I was lucky enough to attend my first Schwartz Round... It was relaxed, welcoming and simply put, the most valuable and important hour of my day."

A major piece of research commissioned by the NIHR found that the proportion of staff with psychological distress halved – down from 25% to 12% – among those who regularly attended Rounds.
