

Coronavirus (COVID-19) e-learning programme

A new programme has been created by Health Education England e-Learning for Healthcare (HEE e-LfH) in response to the Coronavirus (COVID-19) global pandemic.

The programme includes key materials to help the health and care workforce respond to Coronavirus.

Content now available in the COVID-19 programme includes:

- Essential Guidance from the NHS, UK Government, WHO and BMJ
- Public Health England – Personal Protective Equipment (PPE)
- Infection Prevention and Control
- Resources for Staff Working in Critical Care Setting
- Resources for Staff Working in Community Setting
- End of Life Care COVID-19
- Wellbeing for Staff

More content will be added in the coming days and weeks.

The additional content will include new sessions and content curated from different sources such as existing HEE e-LfH

sessions and materials from other organisations. The programme is freely available to colleagues working in the NHS, independent sector and social care. We have removed the requirement to register and log in: <https://portal.e-lfh.org.uk/Component/Details/604722>

Please note that if you do not log in, then your activity will not be tracked and you will not create a learning record. For example, if you are returning to work and need to complete your Statutory and Mandatory training, then you will need to be logged in so that the system knows who you are. So if you need to create a learning record but don't have an account, then you will need to register. Please note this is not restricted and you can submit any email address: <https://portal.e-lfh.org.uk/Register>

Another HEE resource, SCRIPT e-learning, is now freely available to anyone with a NHS email address. For more information visit www.safeprescriber.org email info@safeprescriber.org or follow [@safeprescriber](https://twitter.com/safeprescriber) on Twitter.
